The Hagerman Group Opens Lafayette Office

LAFAYETTE, Ind. – After building multiple landmarks in Tippecanoe County and the surrounding region throughout the past 30 years, The Hagerman Group is officially opening an office in Lafayette, at a ribbon cutting ceremony and open house on August 20 from 3-5 p.m.

In the midst of its 100th year in business, The Hagerman Group is thrilled to open a new office during the celebration of its centennial.

“A new office in Lafayette further solidifies our commitment to the city and surrounding counties,” said Jeff Hagerman, president of The Hagerman Group. “We’re proud of our history in this great community, and we look forward to greater involvement as a committed partner in Tippecanoe County’s economic growth.”

John Meyer, area manager for The Hagerman Group, operates the new office that has been unofficially open for the last several months. He is currently focusing on business development and successful completion of several existing projects.

“We’re focusing on our local subcontract community and on developing new client relationships while maintaining our client focus with existing relationships,” said Meyer. “We’re developing that local mentality. Even though we’ve been in Lafayette since the late 1970’s, most people aren’t aware of it because many of our projects have been on Purdue’s campus, but we’re getting the word out.”

Major Lafayette projects constructed by The Hagerman Group over the years include the Wabash Landing Retail Complex, Pearl River Lift Station, Lafayette City Hall, Ivy Tech Community College, Lafayette Waste Water Treatment Plant and Purdue University’s indoor football practice facility, Engineering Mall and Pfendler Hall.

Current Hagerman Group projects under construction in Lafayette include concrete pits for Caterpillar Inc., to be completed in fall 2008, and Purdue University’s \$30 million Hockmeyer Hall of Structural Biology, to be completed in fall 2009.

The new office is located at 3110 Olympia Drive in Lafayette.

The Hagerman Group

The Hagerman Group is celebrating a century of building with integrity and excellence for clients throughout the Midwest. The firm is comprised of Hagerman Construction, Hagerman Inc. and GDH, and offers general contracting, construction management, design-build and green building services in addition to masonry, concrete and carpentry self-performance capabilities. The Hagerman Group has offices in Indianapolis, Fort Wayne and Lafayette, Indiana.
